

# Accelerating your journey to become a digital health organization

Healthcare systems around the world are facing unprecedented challenges.

New technology entrants, regulatory reform, **consumerism** and the rising cost of healthcare services are the biggest and most influential disruptors which are impacting how organizations operate.

## Transformation in healthcare is no longer a choice, it's a business imperative

Transformation provides the opportunity for healthcare organizations to redefine how they interact with their members/patients, to rethink how they deliver their care and services, to empower how their clinicians and employees work and to optimize their business and clinical processes in the most efficient and secure way.

Healthcare leaders must invest in a secure, scalable platform, and leverage advanced Data and AI Capabilities to enable their clinical transformation journey and to deliver the results they need to succeed.

Together, **KPMG** and **Microsoft** accelerate clinical transformation.

### Cloud is a key enabler to transformation:

Almost half of organizations expect to change their product/service offering or business model fundamentally in the next three years.

One-third plan to replace more than **20%** of roles with AI/automation within the next 5 years.
