Industrial strength outcomes.

KPMG Powered Enterprise enabled by Oracle for Industrial Manufacturing

Marketplace disruptors create the need for manufacturers to transform their business models, processes, and technologies to effectively compete and preserve or unlock value.

KPMG: Delivering meaningful transformations

The KPMG Industrial Manufacturing (IM) practice helps manufacturers modernize their supply chain and finance operations with intelligent automation and advanced data analytics to align back offices, shop floors, and supply chains.

KPMG Powered Supply Chain – Efficient supply chain management is essential for operational efficiency, customer centricity, compliance, carbon footprint, and ultimately, the overall success of an organization. If handled correctly, your supply chain should improve customer service—along with the reputation of your brand—and boost your bottom line:

- Improve productivity of the customer service team for sourcing and quoting
- Increase forecast accuracy using external signals
- Automate processes to free up workers for more value-added activities
- Target higher profits by better matching demand to inventory policy
- Enhance the customer experience with better order promising capabilities

KPMG Powered Finance – Finance organizations need to rapidly respond to new business challenges and opportunities. KPMG Powered Finance is our prebuilt solution that can help eliminate the complexity of aligning your finance function with Oracle Cloud applications—so you can focus on more strategic initiatives that add value to the business:

- Reduce the cost of finance
- Improve performance and transparency
- Enhance decision-making, risk management, and governance
- Enable better use of capital

96%

of C-suite leaders are prioritizing technology investment in the next 18 months.*
