Artificial Intelligence (AI) and Digital Transformation

What you need to know about augmented Al

Al by itself isn't the answer. It takes ongoing human engagement to deploy Al successfully; to gain continuous ROI. If you haven't incorporated model re-training into your process, you could lose the value of what you have developed. Learn more.

Controlling cloud costs with FinOps

FinOps – a combination of finance and DevOps – is a new approach to managing cloud spend. It refers to the financial management of cloud resources by cross-functional teams focused on spend accountability and business value optimization. With FinOps, teams from IT, finance and business units collaborate on datadriven spending decisions. Here's how.
