

# KPMG Powered Evolution

## Drive future transformation

enabled by Workday

### A path to sustained advantage

How do you effect lasting change that goes beyond your successful Workday go-live? You need to be equipped to realize lasting value from your functional transformation investment by leveraging data-driven insights to create value, using your operating model to mitigate risk, and take full advantage of SaaS/platform features and enhancements. All while your project team moves on to the next big thing.

### The challenge

Evolving regulatory changes, disruptive technologies, process improvements, and new market opportunities are likely to pose further challenges as your business moves forward.

Failing to keep up could lead to your Workday platform becoming tomorrow's legacy system and your current leading practices begin to lag behind advancements of the future.

Retaining and fully utilizing the skilled resources required for your transformation provides a particular challenge. Important new releases for your Workday platform are provided twice a year. These require an understanding on how they impact your current operations and need to be implemented efficiently. Maintaining a dedicated team with specific skills and know-how that is only periodically required is not cost effective to your business.

Deriving ongoing value from your transformation requires a more agile approach.

### The solution

**KPMG Powered Evolution** delivers tested Workday capability combined with the leading practices and processes needed to help you remain flexible and adaptive in a world of evolving requirements.

Powered Evolution offers the right blend of Workday skills and resources to support the ongoing change necessary to keep your business driving forward. When needed, Powered Evolution can also provide the operational flexibility and scale to support tactical services within Workday.

### KPMG Powered Evolution key components

## KPMG Powered Evolution consists of the following services and is not a one size fits all approach to your Workday Level 2 and 3 support needs:

### Governance: Manage — Control — Plan

Release planning and change management services for an early assessment of new Workday releases, provide input to the change management process and critical oversight, account management, and performance against SLA reporting.

### Core services: Maintain — Upgrade — Patch

KPMG Service Desk provides a single point of contact with case management support for management of biannual updates (including impact assessment), management of patching cycles and leveraging client-specific support content.

### Enrichment services: Configure — Develop — Enhance — Secure

Client requested configuration changes, enhancements, report writing, technical and functional data integration, development of new interfaces as well as services to provide management with insights and assurance around control and security.

### We're with you every step of the way

Whether KPMG Powered Enterprise has been used to transform your business, or an alternative route has been taken to this point on your journey, Powered Evolution is here to support your next steps.

#### Flexible

We provide the flexibility you need to continue your transformation journey with confidence.

#### Predictable

The right resources that can help just when you need them, while feeling assured about predictable ongoing costs.

#### Cost effective

Continue your transformation journey with agility and speed, without the need for capital investment.
