

ORACLE

Digital empowerment, modern government.

KPMG Powered Enterprise enabled by
Oracle for State and Local Government

Emerging technologies are poised to reshape how government and other industries operate and interact. These technologies create extraordinary opportunities for governments to enhance how they fulfill their missions.

KPMG: Delivering meaningful transformations

For more than 100 years, KPMG has assisted counties, utilities, municipalities, federal agencies, states, cities, school districts, public hospitals, transit authorities, and virtually all other institutions that serve the public through sector-specific audit, tax, and advisory services.

KPMG helps organizations adapt to new environments by modernizing business models, leveraging data and advanced technologies, and increasing operational efficiencies. This thorough solution enables government entities to streamline processes, reduce costs, and improve service delivery to constituents.

From planning to implementation to managed services, KPMG Powered Enterprise for Government, enabled by Oracle, helps clients create tailored, data-driven solutions for Human Resources (HR), Finance, Procurement, and more to help governments navigate challenges to deliver value, drive innovation, and build stakeholder trust.

The dedicated KPMG team specializing in implementing Oracle cloud applications delivers outcome-driven business transformation through their deep functional knowledge, demonstrated delivery proficiency, and utilization of advanced technologies:

- **Leverage** new and disruptive technologies to enable future business models.
- **Help enhance** return on investment for infrastructure and technology assets.
- **Implement** change to drive results that are cost effective and value-driven.
- **Enable** people with the right tools to be more effective and efficient.
- **Establish** governance and transparency that instills confidence in the organization.

KPMG Powered Enterprise simplifies technology implementation

60%

of leaders are very focused on **enhancing IT and data systems** to improve decisions and efficiency.

67%

of leaders named **Cloud as the top technology** that would help their agency overcome its current technology challenges.

94%

said implementing new technologies will be **moderately to very difficult**.*
