

# Responsive operations supply chain

KPMG Connected Enterprise for Energy, Natural Resources & Chemicals

The Connected Enterprise manages the ENRC supply chain with an agile, consistent and operationally efficient supply system powered by advanced analytics. It's a transparent, integrated platform that lets you see and control every aspect of your supply strategy.

» As customer expectations continue to rise and start-ups bring disruptive technologies to market, ENRC companies must embrace change to stay competitive. Building a responsive supply chain, with real-time data analytics, is crucial to this effort. A Connected Enterprise can unite your organization with transformative technology and a new understanding of the many opportunities in the ENRC environment.

» KPMG has the right enterprise decision analytics, operating models and procurement services to help you transform your organization's processes. Connected Enterprise lets you create efficient, cost-saving opportunities across the value chain, so you can act with speed and agility. We can help you craft an outstanding, seamless experience for you and your suppliers, and reduce costs for your organization, too.

## Key considerations

- Do you enable customers with an omni-channel experience?
- Do your fulfilment and delivery options allow customers to select their optimal mix of speed, service and price?
- Do you leverage Data & Analytics across the full value chain to drive enterprise improvement?
- Are your global and local inventories aligned with a flexible, distributed order management system?

## How KPMG can help

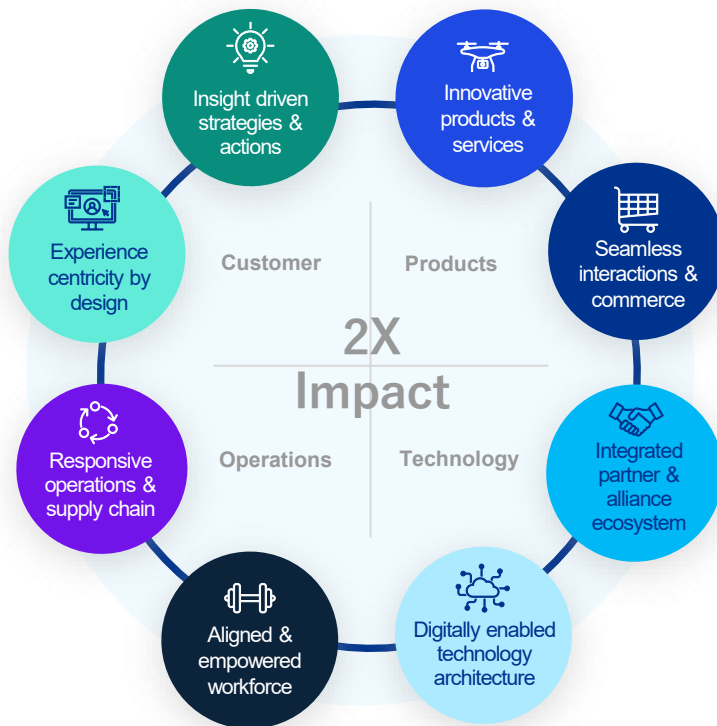

- Designing, automating and creating a seamless supply chain process
- Providing enterprise decision analytics services to help guide enterprise efficiency, effectiveness and risk compliance
- Building digital operating models and value-stream analyses that help optimize the improvements required to drive "inside out" operational efficiency
- Powering responsive operations, a suite of integrated services and solutions designed to improve procurement effectiveness and responsiveness

### What does a Connected Enterprise look like?

The most successful organizations exhibit eight characteristics that span all aspects of the enterprise. The capabilities of front office, middle office and back office integrate seamlessly to support the brands, products and services, interactions and workforce.

### Make the connection

Generate business value at every stage of your transformation journey

Build an insights-driven, digital and customer centric business

Empower and enable your people to align the organization for agility and performance

Engineer secure architectures to enable agile, high-speed innovation
